

JAPS OVERWHELMED AT PORT ARTHUR

Garrison of the Beleagured Stronghold Make a Dash Against the Besieging Troops, Defeating Them in Battle, and Killing or Wounding 1,000 Men.

ST. PETERSBURG, May 21.—The Government to-day received news confirming the rumors that Gen. Stoessel has made a successful sortie from Port Arthur. The Japanese were defeated with the loss of over 1,000 killed or wounded. The Russians' losses were 416 killed or wounded.

The General Staff has received a message from Gen. Stoessel giving his account of the fight north of Kinchou Monday last. Three Russian regiments were attacked by two Japanese divisions with four batteries of artillery. The Russians lost 160 in killed or wounded, including an officer killed and Brig-Gen. Nadein slightly wounded. The Japanese losses are not known, but it is believed they were heavy. The enemy's advance on Kinchou was arrested.

The General Staff explains that this attack on the Russian troops was arranged to take place simultaneously with a landing of Japanese troops in Kerr Bay, which was unsuccessful owing to the number of Russian mines there. The General Staff expects to hear of another stubborn fight at Kinchou. The landing of a Japanese force to flank Kinchou will be exceedingly difficult, as the waters of Tallenwan Bay are too shallow to permit a debarcation of troops.

The General Staff says the whole region northwest of Fengwengchang is clear of Japanese and that reinforcements are daily arriving at Liaoyang. The statement from Newchwang that there is telegraphic communication between that town and Port Arthur is not believed by the General Staff to be correct.

JAPS CUT THROUGH THE LINES BACK OF MUKDEN

(Special Cable Despatch to The Evening World.)

LONDON, May 21.—A telegram from St. Petersburg brings information that the Japanese have flanked Gen. Kuropatkin and have his army in Manchuria hemmed in front and rear. Naturally the telegram, being censored by the Russian Military Staff, gives only an outline of what really must have occurred.

The official information as given out in St. Petersburg is that "some Japanese detachments are approaching Mukden. They either got around Gen. Kuropatkin's defenses or through his lines."

If the Japanese invaders now moving on the Russian base at Mukden got around Gen. Kuropatkin's defenses their approach must have been unopposed and they must have moved in considerable force in order to avoid the possibility of surprise in the extraordinary march. If they got through Gen. Kuropatkin's lines it indicates that they have a great army and have overwhelmed the Russian forces designed to stop their advance.

wires to these places so that they run through Police Headquarters, where by the mere fixing of a plug all conversations over them can be heard.

Commissioner McAdoo said it would be easy to establish the true character of such places by the conversation over the wires, and the telephone people agreed in cases where it was established absolutely that they were serving poolrooms to discontinue such service at once.

The police, under Borough Inspector Brooks, who made twenty-two pool-room raids yesterday, got busy again late this afternoon and made three more raids. By far the most important was that by Brooks himself, Inspector Titus, Capt. Tighe, of the Mercer Street Station, Detective Sergeant Collins and six patrolmen, at No. 338 Bowery, one of the places raided yesterday.

This alleged pool-room is on the top floor, and the police had to smash in three doors before they got to the entrance. The entrance door was of sheet-iron and was proof against the attacks of the policemen. Inspector Brooks finally sent men around to Police Headquarters for axes and jimmies, but before they arrived the men on the other side of the door asked what was wanted, and when Brooks and Titus answered it was the police the man said:

"Why didn't you say so before?" and promptly opened the door. Two telephones which had not been connected were on the floor, and there were other evidences of plans to resume business after the disastrous raids of yesterday. In an alcove Inspector Titus found a portable oven in which a number of papers had apparently just been burned. A man named Frank Jones, who was in charge of the place when it was raided yesterday, was found there again to-day. With him were six men. All were playing cards when the police entered. Several arrests were made.

Just before this raid Capt. Tighe and several of his men paid The Allen's place on Sixth avenue another visit. A lookout on duty there refused to let them in and was promptly arrested. The police then entered and found a number of men playing pinocle. They said it was the West Side Club and not a pool-room. None of them was arrested.

After the Bowery raid the police went to the Bavarian Social Club, an alleged pool-room, at No. 127 Macdougal street. A number of men were found there, but little evidence of play on the races. Two telephones adorned the walls, and they were promptly pulled down and confiscated by the police. No arrests were made. A man named Theodore Schwarke is alleged to be the proprietor of the place.

NO MORE RACING AT NEW ORLEANS? BRUSH ON SUNDAY BASEBALL HERE

NEW ORLEANS, May 21.—It was officially announced to-day that the Crescent City Jockey Club will probably abandon its annual winter race meeting held here in view of the action of the Western Union Telegraph Company in ordering abandonment of the race-track telegraph service.

Officials of the Jockey Club stated to-day that it will be impossible to run the winter meeting except at a heavy financial loss without the revenue derived from the Western Union Company, which paid the race-track management here \$10 per day for every pool-room in the United States and Canada taking the race reports.

Revenues from all other sources, it is claimed, would not begin to meet the expenses of the meeting, much less leave a profit to the management.

INDIANAPOLIS, May 21.—John T. Brush, President of the New York Nationals, in an interview on Sunday baseball, said: "As far as Sunday baseball in New York is concerned, we shall have to see whether the people want it, and if they do, whether the authorities will assure us that we are violating no laws, and are not coming in belligerent contact with them if we do play Sunday baseball."

"The public will be consulted first. In cities like Boston and Philadelphia the lovers of the game do not want baseball on Sunday. It may be that our patrons in New York feel the same way, and if they do there will be no Sunday games on the Polo Grounds, even if the authorities say we may play. We want to give the public what they desire."

NAVY CREW BEATS GEORGETOWN EIGHT

ANNAPOLIS, Md., May 21.—The Navy won both races this morning in the double-header between the first and second crews of Georgetown and the Naval Academy, the finish being one of the most exciting in the annals of aquatic sports. The winning time was 9 minutes 42.3 seconds, and less than two lengths separated the first and the last of the four boats. The distance was two miles.

The order of finish was: Navy, first crew; Georgetown, first crew; Navy, second crew, and Georgetown, second crew.

The race was scheduled for 10:30, but the rough water made the start impossible until about noon.

The race was intensely exciting, as the four boats practically lapped throughout the whole course. The winning time is very close to the record for the distance, but the Navy men had the advantage of a strong wind nearly behind them.

The order of finish was: Navy, first crew; Georgetown, first crew; Navy, second crew, and Georgetown, second crew.
